Narrative Report

For Gaza

Drinking Water · Cash Vouchers · Frozen Meat · Food Baskets

November 2026

Dr. Abdulrahman Al-Sumait (may Allah have mercy on him) said:

"Gratitude is not expressed by words and supplication alone; rather, 'Work, O family of David, in gratitude.' Let your brothers and sisters who are suffering, in the East and the West of the earth, have a share of your concern: a concern that wakes with you and stays with you when you go to bed."

Made possible by the generous donations of Direct Aid Society's donors – may Allah protect them

Implementation period: May – October 2026

Number of projects: 4 relief projects | Country: Palestine – Gaza Strip

Report date: November 2026

1. Executive Summary

This report presents the work Direct Aid Society carried out for our people in the Gaza Strip from May to October 2026 under the "For Gaza" campaigns. Four urgent relief projects were implemented for displaced families in camps and collective shelters, funded by the generous donations of the Society's donors. They were delivered by a partner field implementer, supervised by the Sheikh Abdullah Al Nouri Charity Society, and monitored in the field by an independent audit firm.

The projects covered the most urgent needs: safe drinking water, food baskets, cash vouchers and frozen meat during the blessed Eid al-Adha. All four were completed successfully, guided by the value of Ihsan (excellence): delivering aid to those who need it, at the best quality and by the shortest route.

Key Results

Drinking water: 455 water-truck loads (2,275 m^3) reached 2,177 families at 16 displacement sites in North Gaza and Gaza City.

Food baskets: 994 mixed food baskets, as part of a wider programme that served 1,414 families at 11 shelter sites.

Frozen meat: 1,895 frozen meat portions (3,790 kg) reached families within 13 days during the Eid season.

Cash vouchers: 413 vouchers gave families the freedom to choose what they need directly from local shops.

Transparency: An independent audit firm monitored implementation in the field and took part in the performance assessment.

2. Background and Humanitarian Context

The Gaza Strip continues to face an extremely difficult humanitarian situation. Large numbers of families remain displaced in camps and collective shelters, with severe shortages of safe drinking water and food, and steep rises in the prices of basic goods.

These projects therefore responded to the most urgent sectors under the standard humanitarian cluster classification, Water, Sanitation and Hygiene (WASH) and Food Security, to ease families' suffering and strengthen their resilience.

3. Projects at a Glance

Four relief projects implemented in the Gaza Strip from May to October 2026:

Safe Drinking Water

WASH

2,177	13,067	151

Food Baskets

Food Security

994	5,964	139
families	individuals	days

4	5,479	32,879
projects	families	individuals

4. Project Details

4.1 Safe Drinking Water

Water is the first need of life. The project trucked safe drinking water to displaced families to protect their health and ease their hardship. A total of 455 truck loads (2,275 m³) were delivered to 2,177 families (13,067 individuals) at 16 displacement sites and camps in North Gaza and Gaza City, including Sheikh Radwan, Beach Camp (Ash-Shati), As-Samer and Al-Karama.

Water was distributed on alternate days, with 3 trucks per site each week and about 50 m³ per day, and quantities were allocated according to the number of people and the needs of each site.

4.2 Cash Vouchers

Vouchers let each family choose what it needs from local shops, preserving its dignity. To maximise the value of every donation, 413 vouchers were issued to cover the full allocated amount, in coordination with the audit firm and based on a review of local market prices. The vouchers reached 413 families (2,478 individuals).

Location	Families
Gaza Governorate (orphans' families)	100
Tal al-Hawa	200
Az-Zaytoun Camp	63
An-Najjar Camp – Jabalia	50

4.3 Frozen Meat

The project brought the joy of Eid to the families most in need. A total of 1,895 frozen meat portions (2 kg each, 3,790 kg in all) were distributed to 1,895 families (11,370 individuals). Implementation took only 13 days, so that the meat reached families during the Eid season.

Governorate / Area	Distribution sites
West Gaza	Az-Zahr Camp
Middle Area – Az-Zawayda	Al-Wasat Camp, Al-Aila Camp
Khan Younis – Al-Mawasi	Taiba camps, Al-Aqsa camps, Nasaem Al-Khair Camp, Al-Shaer Camp, Qalaat Al-Sabireen Camp
Total	**1,895 families**

4.4 Food Baskets

The project provided mixed food baskets that meet the basic needs of displaced families. It delivered 994 baskets to 994 families (5,964 individuals), as part of an integrated programme of 1,414 baskets that reached 1,414 families (8,484 individuals) in 11 camps and shelters.

Distribution site (integrated programme)	Families

5. Implementation and Monitoring

Field implementation: A partner field implementer in the Gaza Strip delivered the projects in line with the specifications approved in the contracts.

Supervision: The Sheikh Abdullah Al Nouri Charity Society supervised each stage of implementation and its compliance with the contract terms.

Independent audit: An independent audit firm monitored implementation in the field, reinforcing transparency and quality assurance.

Documentation: All projects were documented with photos and videos, with links available to donors.

Beneficiary data protection: Beneficiary lists are kept by the competent authorities to protect beneficiaries' privacy.

6. Humanitarian Impact

The projects met an important part of displaced families' basic needs and strengthened their resilience. Their results can be summarised against the OECD DAC evaluation criteria as follows:

Criterion	Assessment
Relevance	The projects targeted the most urgent needs (water and food) of displaced families.
Effectiveness	All four projects were completed with the quantities and components approved in the contracts.
Efficiency	The number of vouchers was set to cover the full allocated amount, and the meat project was completed in 13 days.
Impact	Aid reached 5,479 families (32,879 individuals) in Gaza City, North Gaza, the Middle Area and Khan Younis.
Sustainability	These are short-term emergency projects by nature; continued support remains needed, especially for water.

7. Challenges

Difficult humanitarian and security conditions, and continued population movement between areas.

Rising prices in the local market, which were taken into account when setting the number of cash vouchers.

Uneven needs across water distribution sites, addressed by allocating quantities according to actual need.

Conclusion

Direct Aid Society extends its sincere thanks and appreciation to its generous donors, whose giving has made a profound difference in easing the suffering of thousands of displaced families in the Gaza Strip. We ask Allah the Almighty to accept it as a good deed in their record and to bless their wealth and their families.

The Society also thanks its supervision, implementation and audit partners for their efforts in delivering aid to those who need it with integrity and efficiency.
