

# A PROPOSAL FOR RELIEF PROJECTS FOR AFRICA

AGAINST CORONA DISEASE

## CORONA .. INFECTION SPREAD IN AFRICA

And emergencies are Expanding around the World

The spread of the Corona virus has expanded in Africa, with several countries reporting many infections at once, while precautions have escalated around the world, including air closures and curfews in some areas.

African countries are making unremitting efforts to prevent the spread of the newly spreading Corona virus, while health officials have warned that the poorest countries are not prepared to fight the deadly epidemic.

Direct aid has prepared a plan to help poor and needy families in such countries through the distribution of basic foodstuffs in addition to helping the governments of these countries in providing them with the appropriate capabilities to resist the disease and prevent its spread and to provide sterilization materials and some necessary medicines and medical materials.

### THE IMPORTANCE OF THE PROJECT

Urgent relief programs aim to provide emergency humanitarian and relief assistance to tackle the threat of the epidemic Corona disease - Covid 19. This disease is an affliction faced by man and has spread in all parts of the world without exception or significant destruction occurred, in addition to other natural disasters which societies may be surprised by. , Shelter, medical and social care, other necessary life needs and medical supplies.

## THE TARGET

Direct Aid seeks to support government efforts to prevent the virus and support families affected by this crisis and need in addition to the delivery of food in villages and remote areas, and to support and support the Ministry of Health in those countries through the purchase of necessary medical materials, sterilization tools and the conduct and provision of logistical support to health centers from

## PROJECT COSTS

| Country        | Food Relief | Medical Relief | Sterilization centers |
|----------------|-------------|----------------|-----------------------|
| Ethiopia       | -           | 14,630 KD      | 1,577 KD              |
| Uganda         | 30,467 KD   | 31,480 KD      | 8,876 KD              |
